CLOSING, LENDER, AND REAL ESTATE REQUESTS

PPM acknowledges that the sale, purchase, or refinance of properties within a community association requires specific document requests such as transaction histories, certificates of insurance, etc. In order to process these requests as efficiently as possible, PPM has partnered with HomeWiseDocs for closing, lender, and document requests.

Please complete closing, lender and document requests [here](#). Homeowners selling their property do not have to contact PPM regarding any upcoming real estate closings. Instead, sellers should inform their closing attorney about any HOAs associated with the property, and direct the attorney to this webpage to fill out a closing/lender form.

Prior to submitting a document request, please note that many documents are available on the community website and to the current property owner at no charge. Real estate

disclosure information, including confirmation of assessments, is also included on the community website.

CLOSING INFORMATION: If you are unable to locate the property address or the information you are seeking through HomeWiseDocs, please contact closings@ppmral.com.

LENDER FORMS/DOCUMENT REQUESTS: If you are unable to find needed documents or have a question about the lender information you are seeking through HomeWiseDocs, please contact reception@ppmral.com.

REAL ESTATE DISCLOSURE INFORMATION: Information related to the NC Real Estate Disclosure Form can be found on the Association's community website. Please visit [PPM's home page](#) and enter the name of the community in the "Community Website Access" search bar. Real Estate Disclosure Information is found under "Community Pages." Please make sure to review the Association's legal documents and other important documents on the home page of the community website and share this information with prospective buyers. If you are unable to find needed documents or have a question about the information you are seeking please contact reception@ppmral.com.
